Maximum Operating Voltage: 48 Vdc Maximum Operating Current: 6.5 A

Operating Temperature Range -25° to 105 °C, relative humidity of 85% or less

Testing based on IEC 60512-5-2. Max current curve generated with isolated test article under controlled environmental conditions, and does not take into account external factors such as housings, mating cables, or other circuitry. Operating current curve (derated by 20% of maximum values) accounts for external factors, and manufacturing variation.
