Weight: 1.3 oz.

Brass Handle - Orange

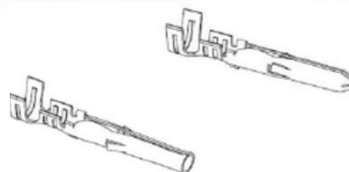

For

Series:

1189 - 1190

1376 - 1377

1380 - 1381

Use with .093" Diameter Terminals. This is the Deluxe version of the W-HT-2054 tool. Extracts .093" pins from housings designed to extract Male and Female Terminals from Nylon Housings (Plug and Receptacle) with smoothness and ease without damage.

Push the terminal forward before using the Tool.

The Locking Tabs on the terminal must be depressed by the Retractable Spring Loaded Tube before it contacts the solid Terminal Push out pin. This pushes the terminal back through the hole as the retractable tube recedes into the handle.

Always re-spread the locking tabs when reinserting the same terminal.
