

Solar Panel Side of Pole Mount

Features

- Utilizes Components from TPSM-250X4-TP or TPSM-350X2-TP to Create a Side of Pole Mount for two 250-360W Solar Panels

Applications

- Steel Poles
- Concrete Poles
- Wooden Poles

Description

Tycon Solar® TPSM-650-SPM versatile side of pole accessory provides a method to adapt the TPSM-250x4-TP or TPSM-350X2-TP ground mount systems for pole mounting. Typical uses would be to enable mounting of two 72cell panels to a concrete or steel pole. Using commercially available pole straps the mounts can adapt to an 8-14" diameter pole.

Specifications

Ref Drawing 5600062	TPSM-650-SPM
Adapter Outside Diameter	141mm (5.563")
Adapter Inside Diameter	128mm (5.047") (5" Sched 40)
Standoff from Pole	914mm (36")
Vertical Offset	190.5mm (7.5")
Pole Strap Slots (Qty 12)	25.4 x 25.4mm (1 x 1")
Pole Size Supported	203-356mm (8-14")
Number of 72cell Panels Supported	2 Max (~720W Total)
Tycon Solar Mount Compatibility	TPSM-250X4-TP, TPSM-350X2-TP
Achievable Tilt	35 – 65 degrees
Mounting method	Commercially Available Pole Straps (Not Included)
Max wind speed	100mph
Shipping Dimensions	1016 x 508 x 508mm (40 x 20 x 20")
Shipping Weight	33.6kg (74lbs)
Warranty	3 years
