

Dismantling Pliers

DIN ISO 5746

13

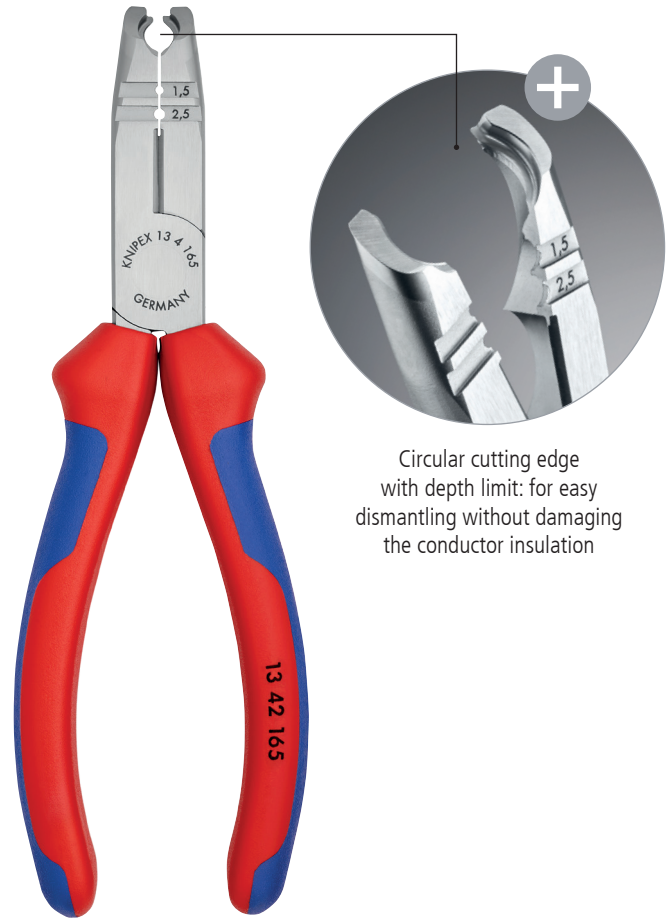

Multifunctional – dismantling, stripping and cutting with one pair of pliers

For time-saving dismantling and stripping of all common round and damp-proof installation cables (e.g. NYM cable)

Simplified access especially to deeply mounted flush sockets due to slim head design and optimally angled cable sheath cutter

Strip cables easily and without damage thanks to circular cutting edge with depth limit

- > dismantles outer sheath of cable easily and without damage due to the circular cutting edge with depth limit
- > precision wire stripping holes for 1.5 and 2.5 mm² conductors
- > integrated diagonal cutters for cutting and trimming conductors, wires, small screws and nails
- > cutting blades induction hardened to (approx. 61 HRC)
- > 30% lighter in weight than comparable pliers
- > slim head design allows for easy access into deeply mounted sockets

Circular cutting edge with depth limit: for easy dismantling without damaging the conductor insulation

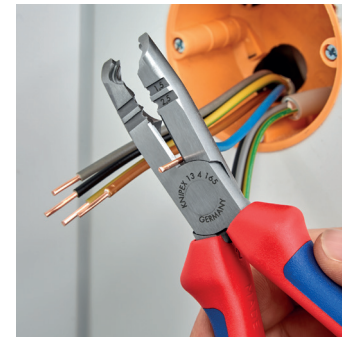

13 42 165

Wire stripping holes for 1.5 and 2.5 mm² conductors

Cutting cable up to Ø 13 mm

Cutting when shortening single conductors
