

Ratcheted Crimper for Non-Insulated Terminals AWG 12-4

Item: CP-353

This heavy duty crimper is for crimping non-insulated terminals of AWG 12-10, 8, 6, and 4. Features high leverage handles and a compound action mechanism. The accurate crimping mold and self-locking / releasing mechanical unit design ensures high crimping quality with repeated crimps. Made of high-quality carbon steel with black oxide finish for anti-rust.

- For non-insulated terminals
- AWG 12-10, 8, 6, 4
- Ratcheted Crimping
- Overall length 14 in.
