

# Surface Mount Dual NPN Transistor

2N5794U

Obsolete (2N5794UTX, 2N5794UTXV)

## Features:

- Ceramic 6 pin surface mount package
- Small package to minimize circuit board area
- Hermetically sealed
- Electrical performance similar to dual 2N2222
- Processed per MIL-PRF-19500/495

## Description:

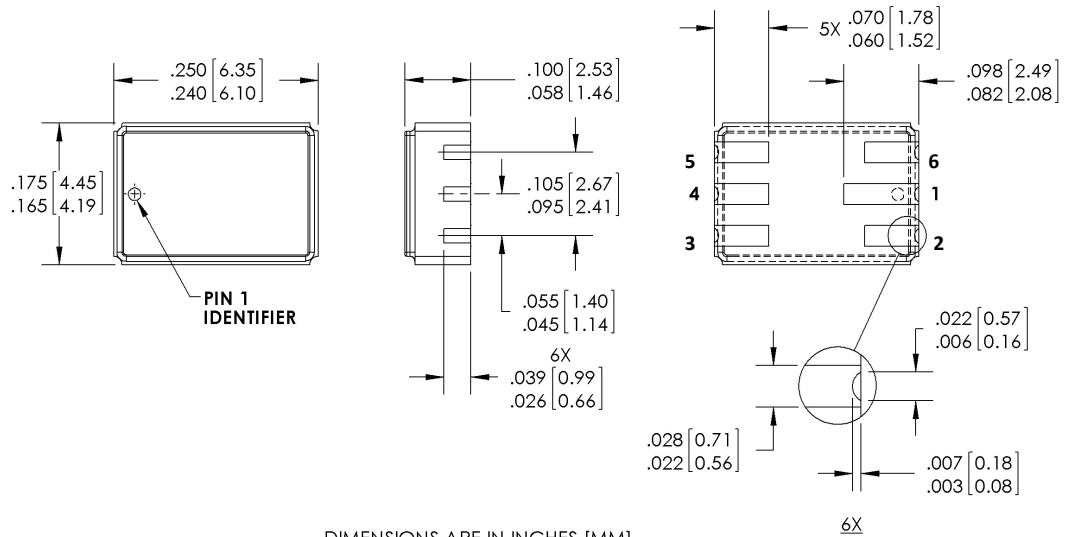

The 2N5794U (TX, TXV - **Obsolete**) are hermetically sealed, ceramic surface mount devices, consisting of two individual silicon NPN transistors. The six pin ceramic package is ideal for designs where board space and device weight are important design considerations.

Typical screening and lot acceptance tests are per MIL-PRF-19500/495. The burn-in condition is  $V_{CB} = 30\text{ V}$ ,  $P_D = 300\text{ mW}$  each transistor,  $T_A = 25^\circ\text{ C}$ . Refer to MIL-PRF-19500/495 for complete requirements.

When ordering parts without processing, do not use the TX or TXV suffix.

## Applications:

- General switching
- Amplification
- Signal processing
- Radio transmission
- Logic gates
