WHY CHOOSE POWERBLANKET GAS CYLINDER HEATERS?

- Increase performance and efficiency of gas cylinders
- Save money by optimizing gas and material usage
- Eliminate unnecessary cylinder refills in cold weather
- Insulated full-wrap design
- UL/CSA/CE safety certifications

OUR CUSTOMERS LOVE US

A large US railroad company that uses these heaters is able to keep snow off the tracks by applying the Powerblanket® Gas Cylinder Warmers to their 1000 lb propane tanks which power their generators along the railway system. Before using the Powerblanket® heaters, the cold temperatures kept the propane from vaporizing, which meant there was not enough pressure in the tank to run the generators.
