

# WORLD TOWER LIGHTS

## SERIES WTL PRODUCT PROFILE

The c3controls **Series WTL World Tower Lights** offer reliability for all your signaling needs. The space saving design is stackable to allow up to five (5) modules in a single assembly. Easy to assemble and disassemble with low power consumption integrated LEDs—no complicated center posts. c3controls Series WTL World Tower Lights will help you reduce your total installed costs and enhance the features and performance of your equipment.

### FEATURES AND BENEFITS

- Tower light assemblies provide the convenience of a single catalog number.
- Heavy-duty polycarbonate construction for excellent durability, impact resistance, superior corrosion resistance, moisture rejection and electrical insulation.
- Available in 24V AC/DC, 120V AC, and 240V AC.
- Lenses are available in five colors as well as the option of clear lenses and integrated color LEDs for a clean, modern look. Three styles of module illumination are available: continuous, flashing and rotary.
- Polycarbonate mounting bases are available in three versions: 50mm direct mount eliminates the need for drilling and reduces installation and our 50mm short and 50mm tall bases secure to the panel utilizing a 4-hole mounting pattern.

### ADVANTAGES

#### Easy Maintenance and Assembly

- No tools required—simply line up the module marking and arrow and turn; 25° clockwise to tighten and 25° counter clockwise to loosen.
- Wiring is made simple with our integrated heavy-duty polycarbonate bases. No complicated center post required for construction—just wire to the terminals.

#### Modular Space Saving Design

- Stackable design to allow up to five (5) modules in a single assembly.

#### Consistent Visibility

- c3controls selects the highest quality raw materials to ensure our products outlast the competition, including Lexan™ plastic for our lenses—improving visibility and resistance to high impact for reliable performance, even in high ambient temperatures.

#### Environmentally Secure

- Rated Type 1, 2, 3, 3R, 4/4X, 12, 13 and IP65 for watertight and corrosion resistance.

#### Energy Savings

- Our low power consumption sound modules are available in continuous or intermittent with 80dB or 100dB output, and our LED lamps last 100,000 hours—that's 11.4 years!

#### Cost Savings

- Typically 25-30% less when compared to other assemblies.
- Shipped pre-assembled—reduce time spent on the floor and improving profitability.

### APPLICATIONS

- c3controls Series WTL World Tower Lights provide visual and audible status of a machine, process or system. Their features, performance and ease of installation make them ideal for baggage handlers, conveyors, and assembly lines.
