MESSAGE RECORDER KIT - DIY

Message Recorder Kit - DIY

Message Recorder. This kit will take ISD DIP chips from ISD1700 series. Powered by 8-24V DC (power supply not included)

COMPONENTS

Resistors:

- 680R blue grey brown R5 R6 2
- 1K brown black red R7 1
- 4K7 yellow violet red R2 1
- 10K brown black orange R8 R9 2
- 22K red red orange R3 R4 2
- 100K brown black yellow R10 R11 2
- 470K yellow violet yellow R1 1

Capacitors:

- 0.1 Monoblock 104 C1 C2 C4 C6 4
- 1uF electrolytic mini C7 1
- 4.7uF elcap C8 1
- 100uF elcap C3 1
- 220uF elcap C5 1

BC547 Q1 Q2 2

BC557 Q3 1

ISD1700 Series IC 1

28 pin IC socket 1

1N4148 diode 1

2 pole terminal block 2

Electret Microphone 1

Hat keyswitch 2

5mm LED 2

PCB (dim = 2.75" x 2.0")

SPDT PCB mounted switch 2
