

Bolt Cutters

Bolt Cutters are designed for cutting rod, wire mesh, concrete form ties, cable and bolts with quick and easy handle. Drop forged, heat-treated jaws (HRC 54-58) made of hardened alloy steel guarantee long durability. Precise adjustable by excentric screws, lever handles additional strengthened by cold drawing.

...we are specialized in steel cutting

RS Code	Capacity		L (mm)	(kg)	
7719240	Ø7	/St150	460	1.600	1
7719237	Ø10	/St150	660	2.300	1
7719231	Ø13	/St150	840	5.100	1

Warning: Shearing dimensions mentioned in table only apply to steel St50 max.150 HB hardened.

Ergonomic plastic grip.
