

# Pan-Wrap™ Braided Sleeving

# PANDUIT®

SPECIFICATION SHEET

## specifications

Braided sleeving shall be designed of thermoplastic polyester halogen-free material for applications that require protection and bundling of wires, cables, hoses, or tubing; especially after cable is routed and terminated and possible re-entry is required (maintenance and repair). Braided sleeving shall be rated for use up to 257°F and provides exceptional flammability performance.

## technical information

<b>Material:</b>	Polyethylene Terephthalate (PET)	Flame Retardant (PET)
<b>Operating temperature:</b>	-94°F to 257°F (-70°C to 125°C)	-94°F to 257°F (-70°C to 125°C)
<b>Flammability:</b>	UL 94-V0	UL 1441 VW-1
<b>Recommended cutting tool:</b>	Hot Knife	Hot Knife
<b>Compliance:</b>	Halogen Free RoHS	Halogen Free RoHS

## key features and benefits

<b>Split wrap design</b>	Allows for installation after cable routing is complete, breakouts of single and multiple cables, and addition or removal of cables post-installation  25% edge overlap ensures complete coverage without opening
<b>Open weave fabrication</b>	Highly flexible, does not trap heat or humidity; quiet in high vibration applications
<b>Patented installation tool</b>	Allows easy loading of maximum bundle diameters to speed installation

## applications

Pan-Wrap™ Braided Sleeving is well suited for the challenging applications found in the transportation and marine industries due to its open weave design, lack of halogens, and exceptional flammability performance. Complicated cable assemblies as well as

dynamic cabling environments also benefit greatly from the split wrap design. The Pan-Wrap™ Installation Tool reduces installation time by allowing easy loading of maximum bundle diameters; especially effective on long runs.

# Pan-Wrap™ Braided Sleeving

## installation instructions using the Pan-Wrap™ installation tool

Open Pan-Wrap™ Tool and insert bundle.

Close tool to contain bundle.

Insert Pan-Wrap™ Braided Sleeving onto end of tool until approximately 3" of it covers the bundle.

Grasp end of Pan-Wrap™ Braided Sleeving and bundle while pulling the tool along the bundle length.
