

New SOT-228 Surface Mount Dual Transistors

features

- Dual Transistors in the new SOT-228 eight (8) lead SMD package
- High Voltage and High Current Devices
- Utilizes 50% less board space than two SOT-223 devices

description

The CYTA44D, CYTA4494D, CYT5551D, and CYT5551HCD types are dual transistors packaged in the new SOT-228 eight (8) lead SMD case. These devices provide space saving over standard devices in the SOT-223. Ideal for high voltage amplifier applications.
