QUAD 2-INPUT EXCLUSIVE OR GATES

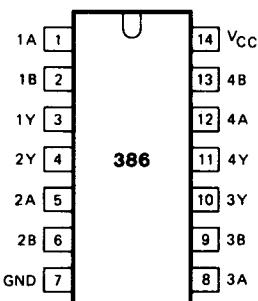

General Description

These devices are identical in pinout to the 54/74LS386. They contain four independent 2-input Exclusive OR gates. The HC/HCT 386 are electrically identical to the HC/HCT 86, However, different in pinouts with each other. These deivces are characterized for operation over wide temperature ranges to meet industry and military specifications.
