

# TC4001UBP TC4011UBP/UBFN

**TC4001UB QUAD 2 INPUT NOR GATE**  
**TC4011UB QUAD 2 INPUT NAND GATE**

TC4001UB and TC4011UB are 2 input NOR gate and 2 input NAND gate respectively. The pin connections are same as TC4001B and TC4011B but the internal circuits consist of only basic NAND (NOR) circuit without the waveform shaping inverters.

Therefore, these are suitable for the applications in linear circuits such as oscillator circuits and amplifier circuits, and these have advantage in the applications of logical processing systems with faster operating speed.

P (DIP14-P-300)

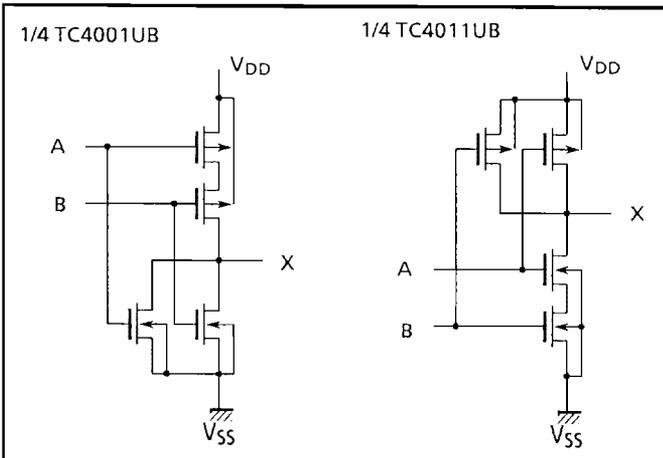

FN (SOP14-P-150)
