## Product Description

For voice/data/video distribution, this cable will handle bandwidth-intensive applications. Meets all TIA/ANSI Cat5e standards and the stringent TAA compliance requirements for anyone who needs to procure products exclusively manufactured in countries on the Trade Agreement Act list.

Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point.

Constructed from high quality cable and a shortened body plug, this design minimizes Near-End Crosstalk (NEXT) levels. Available in a variety of colors to easily color-code your network installation.
