Square Faces Available in 1.5" Diameters in Blue Soft and Yellow Medium
Hard

Safety Heads Assembled with Locking Nuts for Secure Assembly
Professional Quality Made By Wiha

Very nice mallet! Review by Micah

Rating ★★★★★

First, I would like to point out my one irritation: the size description is misleading. I couldn't resist the sale price and bought the 2"x12.2" option, but it turns out 12.2" is the length of the handle alone. With the head this mallet is over 14" long. If I would have known that I would have gone one size down. Please fix the description and make it clearer! With that said, this is a beautiful mallet. The handle is more robust than others, and it's hickory so it's not like you have to worry about weight. The heads seem very durable and the durometer of each side will suit my needs well. The cast iron shells are also of very high quality. You won't regret spending the extra buck!
