Breadboard - Translucent Self-Adhesive (Red)

PRT-11317 ROHS ✔ 🔲

★★★★☆ 1

Description: Description: How could anyone improve on the clear plastic breadboard. I mean, that's pretty sweet right?

What if it was red?

This translucent red breadboard is probably the coolest looking regular, solderless breadboard there is. It has 2 power buses, 30 columns, and 10 rows - a total of 400 tie in points. All pins are spaced by a standard 0.1". The two sets of five rows are separated by about 0.3", perfect for straddling a DIP package over. The board accepts wire sizes in the range of 29-20AWG.

This board also has a self-adhesive on the back. The boards also have interlocking parts, so you can hook as many together as you'd like.

Dimensions: 3.29 x 2.15 x 0.33" (83.5 x 54.5 x 8.5mm)

★★★★☆ **Great good looking board**

about 2 months ago by Member #357964 ✔ verified purchaser

Looks great mounted on a Sparkfun breadboard holder with the new Arduino Zero.

SparkFun is an online retail store that sells the bits and pieces to make your electronics projects possible. Whether it's a robot that can cook your breakfast or a GPS cat tracking device, our products and resources are designed to make the world of electronics more accessible.

In addition to products, SparkFun also offers classes and online tutorials to help educate individuals in the wonderful world of embedded electronics.
