

TG54 and TG56 feature powerful LED worklights

Easily identify measurement location with built-in laser

FLIR TG54/TG56

Spot IR Thermometers

The TG54 and TG56 Spot IR (Infrared) Thermometers provide noncontact surface temperature readings so you can quickly and easily take measurements in places that are out of reach. Providing a distance-to-spot ratio of up to 30:1, the TG54 and TG56 can measure smaller targets from a safer distance. New mode options give you control to view your current reading and last two temperature readings simultaneously. The TG54 and TG56 are built with a color screen that makes it easy to navigate and select settings, plus adds visibility and efficiency to the advanced feature set. The TG54 and TG56 are your go-to, pocket-sized devices for efficient temperature measurement.
