TECHNICAL DETAILS

DESCRIPTION

Make your next audio input/output project in a box with this handy **Panel Mount Stereo Audio Extension Cable - 1/8" / 3.5mm**. OK its quite a mouthful, but its pretty simple: that headphone or microphone jack you know and love? (OK everyone but you, Tim Cook!) Now you can attach it onto a box or panel with the socket-side of this cable, and plug in the plug part into your device.

Use with any box/panel up to 0.1" thick, with a ~0.25" diameter drill hole.

Ideal for connecting audio devices such as smartphones, tablets, MP3 players, car stereos, portable speakers or any other 3.5mm (otherwise known as "1/8th inch") outputs or inputs.

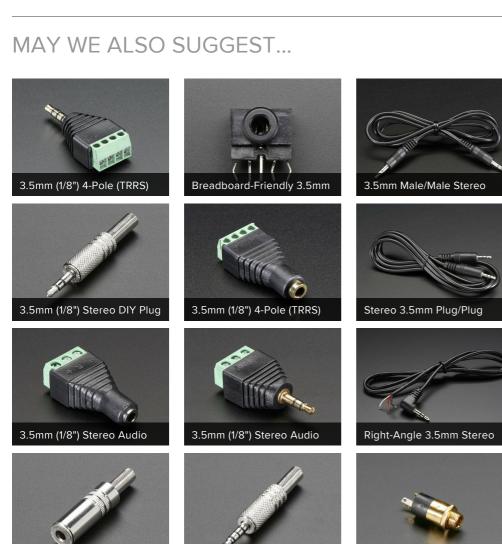

TECHNICAL DETAILS

Cable length: 13" (330mm)
