

ELECTRICAL TEST KITS

Best-Sellers in Convenient Value Kits

CL320KIT

HVAC KIT

- **CL320** HVAC Clamp Meter is an Auto-Ranging, TRMS digital clamp meter that measures 400A AC, DC Microamps, and Temperature. It comes with test leads with CAT III/CAT IV safety caps, and a K-Type thermocouple probe.

- **IR07** is a dual IR (infrared) and probe thermometer that measures temperature from -40 to 572°F (-40 to 300°C). The IR probe accurately measures surface temperature with a distance to spot ratio of 8:1. The probe measures air and liquid temperature. Calculates differential temperature (T1-T2).

- **NCVT-3P** Dual Range Non-contact Voltage Tester with Flashlight detects low and standard voltage from 12 to 1000 V AC or 70 to 1000V AC for a broad range of applications.

- Includes all required batteries, manuals, and a pouch.

RT250KIT

PREMIUM ELECTRICAL TEST KIT

- **RT250** is an electrical receptacle tester with LCD that identifies common wiring faults on North American 120V outlets. The LCD displays the voltage, identifies the wiring fault, and the time required to trip a GFCI device.

- **NCVT-3P** Dual Range Non-contact Voltage Tester with Flashlight detects low and standard voltage from 12 to 1000 V AC or 70 to 1000V AC for a broad range of applications.

- Includes all required batteries, manuals, and a pouch.
